DETAILED ACTION

Allowable Subject Matter

Claims 1 – 12 are allowed.

The following is an examiner's statement of reasons for allowance: Regarding claims 5 and 9, the Applicants correctly argue that "packetizing" MIDI data (as taught by Kikuchi) is not converting data from an event form to an audio form. Furthermore, Kikuchi discloses server-side processing. Regarding claims 10 and 12, the prior art does not disclose "converting music data including a series of event data in a musical performance event data format into an audio data format, and transmitting the converted audio data." Furthermore, the prior art does not show a client requesting a server to convert data from a data event format (e.g., MIDI data) to an audio format on the server side and then transmitting the data (after conversion on the server) to the client.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
